PART ONE

Program Description

I. Preliminary Information

Program Title:	Diploma in Law
Targeted Learners:	General High School Graduates

II. Program Objectives

١. General Objectives:
 - Preparing law clerks with intermediate-level diplomas who are capable of carrying out core as well as support tasks in the field
 - Meeting the Saudi market needs vis-à-vis the judicial, security, investigation and general prosecution authorities or in the field of related clerical work
 - Keeping up with the local and international developments in the field
٢. Knowledge Objectives:
 - Studying the principles of law and other related courses
 - Studying the law tenets and regulations, computer and English
 - Assimilating the different legal systems of the Kingdom

Kingdom of Saudi Arabia
Ministry of Higher Education
King Saud University
College of Applied Studies and Community
Service
Program of Administration & Human
Sciences

المملكة العربية السعودية
وزارة التعليم العالي
جامعة الملك سعود
كلية الدراسات التطبيقية وخدمة المجتمع
برنامج العلوم الإدارية والإنسانية

٣. Skill objectives:

- Taking notes, drafting legal replies as well as mastering legal terminology and phrasing
- Representing the institutions for whom the (prospective) clerk works before the judicial, security, investigation and general prosecution authorities
- Achieving advanced status in English Language Acquisition in general and in the field of law in particular
- Mastering computer use and applications in the field of law
- Enhancing the students' skills in handling legal issues and activities
- Increasing the students' abilities to prepare reports and make presentations on the various issues at hand before clients or specialists in the field

٤. Professional Objectives:

- Increasing the students' abilities to assimilate banking operation processes
- Improving the students' abilities to assess customers' credit applications
- Cautioning the students against the risks ensuing from money laundering and other such practices
- Participating in the design of novel services and products prompted by the market

- Enhancing the students' abilities to comprehend and interpret banking financial reports

Kingdom of Saudi Arabia

VI. Course Contents:

Each course contents shall be presented in detail along with a description of the courses attached.

VII. Course Requirements:

General High School Certificate

VIII. Student Evaluation Methods

	Method	Objective
١	Tests	Testing the student's knowledge and learning ability

		in the field
٢	Applications	Testing the student's acquired skills in the program
٣	Research	Testing the student's ability in making interpretations, explanations and inferences
٤	English	Testing the student's general communicative ability in English
٥	Computer	Testing the student's ability to use the computer

IX. Program Evaluation Methods (carried out on annual basis)

Academic Community	Tools	Sample Size and Type
Training-stage students	Questionnaire	٢٠٪ random sampling
Program graduates	Questionnaire	٢٠٪ random sampling
Faculty members	Questionnaire	All program faculty members
Law and legal affairs sector in the Kingdom	Questionnaire	All courts, ministries and law institutions

X. Teaching Methods

١. Lecturing
٢. Discussions
٣. Exercises and applications
٤. Cooperative learning
٥. Brain-storming
٦. Guided Research
٧. Field training in law-related institutions inside the Kingdom

XI. Teaching Instruments:

١. Projection screen
٢. Computer
٣. Powerpoint presentation
٤. Tape recorder
٥. Lab English classes (phonetics)

٦. Computer

٢. Word processors' functioning system
٣. Common features of word processors
٤. Advantages of good word processing systems: entering and saving data, adjusting, editing, printing
٥. Editing: free movement inside the document, insertion, entering data in another language, selection, deletion, text movement, cutting and pasting, undoing changes, searching and replacing, spelling, grammar, Type of Arabic script
٦. Text set up:
 - Setting up numbers and letters
 - Setting up paragraphs
 - Setting up pages: margins, headers, footers, etc.
٧. Inserting symbols, pictures, page numbers, shapes, gutters, comments, etc.
٨. Making drafts and clarification tools
٩. Custom set-ups: drawing and setting up tables, symbols, clarification tools, merging
١٠. Merging different applications
١١. Printing set up, print previewing, printing

II. Slides and Electronic presentations Unit: (٢ – ٣ weeks)

١. Introduction: data types (audio, written, graphic, motion, etc.), attention-getting techniques utilized in presentation and slide preparation; types of presentation and slide preparation; screens and the main components of slide presentation programs
٢. Presentation techniques in slide preparation programs
٣. Creating a presentation: preparing the slide background, entering and setting up data, pictures, logos, sound and motion effects and saving the slide
٤. Adjusting, designing and controlling the slide outlook; entering the date and the slide numbers; adding headers and footers; applying and modifying the coloring systems as well as creating and saving design patterns
٥. Drawing and adjusting figures: creating lines and arrows; moving a figure and changing its size; selecting colors for the figures; creating shadings and three-dimensional figures; organizing and arranging figures
٦. Adding clips and multi-media: inserting, removing and classifying clips; drafting an art clip; inserting a picture and video clips; sound recording, etc.
٧. Adding charts and graphics
٨. Getting ready for the presentation: creating transitional effects for the slides; adding motion pictures; utilizing custom motion commands; adding buttons and links to the figures; creating hyperlinks to external figures and timing the presentation
٩. Executing the presentation: making commands; moving between the slides; hiding a slide and taking notes during the presentation; executing the presentation

III. Spread sheet Unit: (٢ – ٤ weeks)

١. Definition of spreadsheet programs
٢. The importance of spreadsheet programs in commercial and accounting transactions

٣. Elements of programs: graphs, database

worksheet
worksheet,

٤. Worksheet components: workbook; definition of worksheet; column; row; cell; active cell; cell address; range

٦. Formulas and functions: auto calculation; priority arrangement while creating formulas; conventional methods of creating formulas; using range to simplify formulas; range writing method; using functions to carry out calculations; difference between formula and function; copying and pasting functions and formulas; the concept of adjusting the cells' relative title
٧. Graphic representation of data: advantages of graphs; types of graphs; creating and setting up graphs
٨. Analysis the worksheet data: lists; sorting; filtering; analyzing data utilizing pivot table
٩. Creating an effective worksheet
١٠. Work automatization utilizing macro
١١. Printing the worksheet: preparing the worksheet for printing; adding footer and header to the worksheet; showing the network lines in print; showing the heads of rows and columns in print; print previewing; printing all of the worksheet or part of it

IV. Front Page Unit: (٢ – ٢ weeks)

١. Planning and designing the website
 - World-wide web
 - What is HTML?
 - Familiarizing the student with the web pages and sites
٢. Managing the website through the Front Page
٣. Creating the web page and site
 - Adding texts
 - Adding pictures
 - Adding sound effects
 - Adding video clips
 - Adding tables
٤. Setting up the web pages
 - Adding colors
 - Setting backgrounds
 - Adding graph lines
 - Creating page frames

٥. Hyperlink

- Connecting the web pages through hyperlink
- Tracking the effect of hyperlink connections
- Creating bookmarks
- Creating hyperlink to bookmark
- Creating hyperlink to other websites
- Creating hyperlink to e-mail
- Removing hyperlink

٦. Viewing the web pages

٧. Creating templates in the website through the Front Page

- Entering data through textbox
- Preparing editing textbox
- Making radio and press keys

٨. Connecting with database

٩. Publishing and maintaining the website

V. Outlook Unit: (٢ – ٣ weeks)

- Sending and receiving e-mail
- Inserting meetings and appointments in the task list
- Storing telephone numbers, addresses and e-mail contacts
- Keeping track of the tasks to be carried out
- Sending and receiving faxes
- Filtering and sorting e-mail
